THE SPA AT WYNN PALACE

Guests seeking a superlative blend of pampering and relaxation will find a sanctuary for the body and spirit at The Spa at Wynn Palace, an immersive environment of luxury and tranquility.

The largest spa in Macau, guests can enjoy a range of experiences from rejuvenating facials to transcendent massages and signature holistic body rituals, each custom-designed to suit individual needs, using exquisitely crafted products exclusive to The Spa at Wynn Palace. Authentic massage techniques are combined with the latest technologies to ensure old and new are perfectly blended by trained therapists to deliver the best results.

The exceptional design of the spa is as stunning as it is unique. Inspired by the royal residences of China's most fabled dynasties, the spa is designed to honor the grandeur of the imperial court. Every element is handpicked especially for the space, so that guests can find a true retreat away from all the excitement. Guests arrive in the Grand Court where a solid brass Foucault pendulum is suspended in the air, its rhythmic swaying marking the entrance to a more tranquil world. A hand-painted, sepia-toned wall-covering mural runs the length of the promenade, depicting a scene of the life around a Chinese Palace and the surrounding waterways.

Guests can unwind in unhurried comfort, enjoying the facilities in the lounge or spa room at their own pace before or after their treatment. Individual guests or couples can relax in one of The Spa's 18 single treatment spa rooms (six of which are private VIP suites) or four double treatment rooms (two of which are private VIP suites), all named after gemstones. Each VIP suite features hand-made wallcoverings, daybeds for relaxing, soaking tubs and water therapy zone surrounded by rich stone.

The Spa at Wynn Palace follows a sophisticated approach to a balanced body. The Emperor and Empress Wynn Palace Rituals offer head-to-toe indulgence for men and women, creating a complete pampering experience. Massage experiences awaken perfect balance and harmony between the inner and outer self, including the Royal Enchantment, a four-hand massage that promotes deep relaxation. Extravagant facials use age-defying aesthetician techniques, such as the Diamond Life Infusion which combines a gold bar, light therapy and a gold soft mask to rejuvenate the skin. Cutting-edge technology is also on offer, including the Air Aqua Treatment where an application of water and oxygen acts as a natural facelift, reducing wrinkles and improving pigmentation.

Before or after their treatment, guests can savor the spa facilities, enjoying services such as light therapy masks, oxygen therapy, a cologne & perfume bar and complimentary foot, neck & scalp massages amidst serene surroundings.

The Spa at Wynn Palace also features an outdoor swimming pool and spa pool with a café and a wide selection of healthy cuisine.
